UCLG Committee
on Social Inclusion,
Participatory Democracy
and Human Rights

*The **Committee on Social Inclusion, Participatory Democracy and Human Rights**, acting as a network for Local Governments engagements and practices, contributes to articulating a common voice for UCLG cities on social inclusion, participatory democracy and Human Rights and to carry this voice at global level. To that end, the Committee fosters political debates, exchange of experiences and the collective generation of knowledge. It also orientates its member Local Governments in designing, implementing, evaluating and capitalizing their policies on social inclusion, participatory democracy and Human Rights, towards the progressive realization of the Right to the City.*

The year 2016 was marked by the participation of the Committee (CSIPDHR) in the Habitat III process, both within the framework of civil society, through the active

participation in the Global Platform for the Right to the City, as well as within the Global Taskforce of Local and Regional Governments coordinated by UCLG's World Secretariat. Taking part in this process allowed the CSIPDHR to promote the Right to the City at a global scale, as well as to strengthen its relation with civil society. The joint action of these diverse stakeholders played an important role in achieving, for the first time in an international text, a mention to the right to the city in the Habitat III Agenda. Ultimately, the Committee strengthened its presence and recognition in the global arena, by taking part to other networks' activities, in close coordination with academia and social movements. This was an important year to extend the network of cities and citizens, as well as its influence.

I. POLITICAL ADVOCACY TO PROMOTE THE RIGHT TO THE CITY AND THE HUMAN RIGHTS IN THE CITY

In 2016, the CSIPDHR intensified the advocacy work started in 2015, focused in promoting the vision and messages of the Right to the City in the framework of UCLG as well as throughout the [Habitat III Process](#). These coordinated efforts were crucial for the adoption of a Global agenda - the [New Urban Agenda](#) - which refers to the concept of the Right to the City and contains some of its main components. The Quito Summit was preceded by a series of thematic and regional preparatory meetings, as well as meetings of the Preparatory Committee of delegates of States (“PrepComs”), where the Committee promoted the Right to the City and its contents through the adoption of declarations and the organization of sessions. In the framework of this process, the Committee worked within the [Global Platform for the Right to the City](#) - where Local Governments, Academia and Civil Society developed a continuous effort to articulate their voices at a global and European level. Finally, the CSIPDHR maintained its advocacy work for the recognition of the role of Local Governments in the protection, promotion and guarantee of Human Rights vis-à-vis the Human Rights system of the United Nations, through the international network of cities for Human Rights created, reinforced and extended through the different editions of the [World Human Rights Cities Forum of Gwangju](#).

Defending the right to the city throughout the Habitat III process

Follow-up process of the New Urban Agenda preparatory documents

In coordination with the Committee’s Local Governments, the Global Platform for the Right to the City and the Global Taskforce of Local Governments, the Committee presented analysis, comments and recommendations on the preparatory documents of the NUA: policy documents, issue papers of experts involved in the ten Policy Units that preceded the writing of the Agenda, declarations – with a special regard to the declaration of Mexico on local finances and the declaration of Barcelona on public space- , as well as different versions of the NUA’s draft¹. All the comments made by the Committee are available on the Committee’s [Habitat III monitoring webpage](#) especially designed to that matter. This session was co-organized by the CSIPDHR Secretariat and was supported by the UCLG Committee on Local Finance for Development, aiming to strengthen the Right to the City into the Habitat III process, especially in terms of local finances.

Participation in the United Nations conference on Sustainable Urban Development and Housing Habitat III and alternative forums

(Quito - 16-20 October)

A Committee's delegation went to Quito to attend both the United Nations Habitat III Conference as well as several alternative forums organized in parallel to the Habitat III process. The Right to the City, promoted by the Committee for several years, was unanimously defended by the mayors at the World Assembly of Local and Regional Governments that opened the Habitat III Conference. Patrick Braouezec, co-President of the Committee, was invited to present the need for the Right to the City in an increasingly urban world. Therefore, local leaders supported the mention of this right into the Habitat III Agenda,

achieved after arduous debates despite the strong opposition of some important countries, such as United States, the European Union, Canada and Japan. As an important sign of recognition, various cities of the CSIPDHR (City of México and Plaine Commune) were included in official events of the programme, such as the Urban Dialogue about the Right to the City.

The committee also took part to networking events : one about security of tenure and social inclusion, with the French Agency for Development, the French Ministry of Foreign Affairs and the UN Office of the High Commissioner for Human Rights; another on the implementation of the right to the city organized by the Global Platform for the Right to the City, and another one on Participatory Democracy and the Right to the City organized by ENDA Eco Pop. During the debate, it was highlighted the strength of the global municipalist movement to promote solidarity-based cities and territories. The local level was also defended as the best space to improve the lives of citizens, putting people at the centre of a strong public action.

Participation in the Global Platform for the Right in the City

Global Platform for the Right to the City
Plataforma Global por el Derecho a la Ciudad
Plataforma Global pelo Direito à Cidade

The Platform gathers organizations from civil society, Local Governments and Academia. It aims to establish commitments, policies, projects and actions to build fairer, more democratic, sustainable and inclusive cities. The Committee on Social Inclusion, Participatory Democracy and Human Rights is a co-founder of the Platform. It takes actively part to working groups on “Political Advocacy” and “Communication”.

CSIPDHR’s active involvement in the Platform throughout 2016 helped to coordinate the advocacy efforts made by civil society and Local Governments in the perspective of Habitat III, strongly contributing to the inclusion of the Right to the City and its principles into the Habitat III Agenda.

On the other hand, during 2016, the Platform kept up with the regional meetings started in 2015, focused on consolidating the Platform in different continents. The CSIPDHR took an active part in the organization of the European meeting of the Global Platform for the Right to the City, along with Barcelona’s Observatory on Social, Economic and Cultural Rights (Observatori DESC).

Platform activities in the Habitat III conference and alternative forums

(Quito - 16-20 October)

Finally, a Platform's coordination meeting was also held once after the Habitat Conference was over to evaluate the work of the Platform through the past two years and set the strategic lines for the coming years.

Throughout all these events, the Committee recalled that the Right to the City is based on the internationally acknowledged Human Rights, and that it aims to guarantee cities and human settlements as common goods, far from their commodification. Furthermore, the Committee emphasised that the right to city cannot become the “obligation to city”, and that the only possible and sustainable urbanization model must take into account the links with the rural surroundings. Lastly, the Committee argued that public finances –especially at the local level- and multilateral funds are necessary for a universal realization of the Habitat III Agenda. It also advocated for a monitoring system based on the territories and its inhabitants. Find an overview of the Quito and Bogotá sessions in [the following link](#).

The workshop “[Co-Creating the City](#)” held during the Bogotá Congress also enabled to meet social movements that are contributing to the realization of the Right to the City.

The Committee also established more solid relations with other city networks, especially [UNESCO's International Coalition of Cities against Racism \(ICCAR\)](#) (see p.9).

VIII. ACTIVE PARTICIPATION IN THE STRATEGY OF UCLG

Throughout 2016, the Committee participated in the process of definition of the strategic priorities of UCLG and took part in their implementation. As a result, some relevant proposals of the CSIPDHR, such as the Right to the City and the Right to Housing, were incorporated in [the Bogotá Commitment](#).

In 2016, the strategic partnership between UCLG and the European Commission in order to strengthen the network of stakeholders in favour of decentralization and local democracy has also been maintained. In this regard, the Committee on Social Inclusion, Participatory Democracy and Human Rights, represented by its Co-Presidency of Plaine Commune and its Executive Secretariat, took part in the [UCLG Retreat and Campus](#), which gathered UCLG network from 15 to 19 February in Barcelona, in order to create synergies between UCLG's various sections, committees and working groups, especially in relation to the UCLG Congress and the advocacy towards Habitat III Agenda.

The Committee was acknowledged as a strategic piece in the coordination work between UCLG and the civil society, as well as a leading thematic Committee in working for more inclusive, democratic and sustainable cities by promoting the Right the City in the framework of the [UCLG Global Agenda](#).

IX. MOBILIZATION IN FAVOR OF LOCAL DEMOCRACY IN DIYARBAKIR

Gultan Kisanak, the mayor of our city member of Diyarbakir (Turkey), and his co-mayor, Firat Anli, were arrested on 25 October and placed into police custody, accused of having supported the Kurdistan Workers' Party (PKK), which is considered a terrorist organization. About fifteen municipal officials have also been arrested on the same charges. Access to the municipal buildings was blocked for two days and internet communications were blocked throughout the city from 25 to 27 October.

On the basis of [a statement issued by the United Nations High Commissioner for Human Rights](#) regarding the abusive nature of this detention, [the CSIPDHR issued a statement](#) inviting its members to question their ministries of foreign affairs and the consulates of Turkey on the matter. At the current moment, it is being studied which follow-up should be given to the case, in order to support local democracy and to support Dyarbakir municipal team, which has been strongly committed for social inclusion and Human Rights within the Committee.
